

Alessandro Smajlovic

Junior Data Analyst

I've completed a master in Data Analysis at Start2Impact University. I bring a blend of interpersonal skills and analytical mindset. Eager to leverage my adaptability and dedication to drive data-driven insights and contribute to the success of innovative projects in the field of data analysis.

Education

2023 - Master Data Analysis

Start2Impact University

Throughout the master's program, I developed expertise in using Excel for data manipulation and analysis with Macros and VBA language, MySQL for database management and querying, Python with various libraries for data cleaning, transformation, and statistical analysis and I honed my data visualization skills using Tableau, creating interactive and visually compelling representations of complex datasets. Each course was followed by a project.
